Expected learning outcomes / Μαθησιακοί στόχοι

The aim of the course is to provide a comprehensive legal grounding to the fundamental principles of Company Law and Corporate Finance Law. The objective of the course is also to equip students with a practical and critical knowledge of the substantive law that governs the corporate financing.

At the end of lectures students should be able:

- to understand the basic principles of Corporate Finance Law
- to demonstrate knowledge of the institutional framework concerning companies structure and corporate financing
- to implement their knowledge in order to solve relevant problems arising from the operation of companies.
